148, boulevard des Montagnais | Uashat | QC | G4R 5R2 | 418.960.0982

LOCOMOTIVE ENGINEER | KAUTAPANITSHESHT
ISHKUTEUTAPANIT | ᑭᐱᑭᑦᑭᑦ ᐱᑦᑭᑦᑭᑦᑭᑦ

JOB DESCRIPTION

Department : Operations

Supervisor : Operations and Logistics - Coordinator

Type of Employment : Permanent, Unionized

Workplace : Between Emeril and Schefferville

Salary : Between \$ 31 and \$ 38 / hour

Schedule : According to the organization's needs

Probation : 480 worked hours

Under the supervision of the Operations and Logistics Coordinator, the candidate is responsible for operating trains safely and ensuring proper functioning of the locomotives and train handling. He must make sure he understands indicators, train signals and railway rules and regulations. The candidate may be part of the yard or line crew that switch cars, forms or splits trains in yards or on the route, moves cars between yards, sidings or tracks and performs any other related task.

REQUIRED SKILLS

- Knowledge of railway operating rules, technical maintenance standards and safety rules an asset;
- Have experience as a Train Conductor;
- Pass the exams required by Transport Canada;
- Demonstrated ability to respect all safety regulations and standards;
- Be able to read and understand technical manuals;
- Ability to work in a team;
- Have good interpersonal skills;
- Be able to solve problems and make decisions; and
- Working-level bilingualism (an asset).
